

Lynne McClure

Lynne has had a varied career in mathematics education, with experience which ranges from headship of a small elementary school to Principal Lecturer and course leader at two UK Universities. Whilst living in Scotland she ran her own consultancy which took her all over the world. She is the author or editor of many books and articles, and is well known as a conference speaker and professional development lead.

Lynne chaired the teams which attempted to advise ministers on the content of the new English National Curriculum. She was a member of the Advisory Committee on Mathematics Education from 2009 to 2013 and remains on the Outer Circle. Lynne is a Chartered Maths Teacher and an invited Fellow of the IMA. She was delighted to be the President of the Mathematical Association in 2014/15, and takes up the position of Chair of ISDDE in 2017.

Lynne's previous role was Director of the prestigious NRICH project (nrich.maths.org), based in Cambridge University's Centre for Mathematical Sciences. She retains links there as she remains PI on the new government-funded UndergroundMaths (previously CMEP), an innovative A-level project (undergroundmathematics.org). Her current role is as Director of the new Cambridge Mathematics project (www.cambridgemathematics.org) which seeks to design an innovative and inclusive curriculum appropriate for the 21st century.

Lynne is on the advisory board of several large UK projects and has been a member of the European Advisory Boards for Fibonacci and Primas, and now mascil.
